

The 7th International Workshop on Biosignal Interpretation (BSI2012)

July 2-4, 2012
Palace Hotel
Como, Italy

FIRST ANNOUNCEMENT AND CALL FOR PAPERS

General Chair

Sergio Cerutti
Politecnico di Milano, Italy

Program Chair

Luca Mainardi
Politecnico di Milano, Italy

Program Committee

Ki Chon
Worcester Polytechnic Inst., USA
Hartmut Dickhaus
Univ. of Heidelberg, Germany
Bin He
Univ. of Minnesota, USA
Ratko Magjarević
University of Zagreb, Croatia
Kazuo Yana
Hosei University, Japan

Scientific Committee

Metin Akay
University of Houston, USA
Fabio Babiloni
Univ. of Rome "La Sapienza", Italy
Riccardo Barbieri
Massachusetts General Hosp., Boston, USA
Giuseppe Baselli
Politecnico di Milano, Italy
Anna M. Bianchi
Politecnico di Milano, Italy
Pere Caminal
Tech. Univ. of Catalonia, Barcelona, Spain
Olaf Dössel
University of Karlsruhe, Germany
Dario Farina
Georg-August University, Göttingen, Germany
Dimitris Fotiadis
University of Ioannina, Greece
Christopher James
University of Warwick, UK
Akos Jöbbszky
Budapest Univ. of Technology and Economics, Hungary
Ilkka Korhonen
Tampere Univ. of Techn., Finland
Pablo Laguna
University of Zaragoza, Spain
Catherine Marque
Univ. of Tech. of Compiègne, France
Giandomenico Nollo
University of Trento, Italy
Laura Roa
University of Seville, Spain
Maria Gabriella Signorini
Politecnico di Milano, Italy
Leif Sörnmo
Lund University, Sweden
Shanbao Tong
Shanghai Jiao Tong Univ., China
Mark van Gils
VTT Information Techn., Finland
Andreas Voss
Univ. of Applied Sciences, Jena, Germany
Yoshiharu Yamamoto
University of Tokyo, Japan

SCOPE:

The International Medical Informatics Association (IMIA), the International Federation for Medical and Biological Engineering (IFMBE), the IEEE Engineering in Medicine and Biology Society (EMBS) (authorizations pending), as well as the IEEE Italian Chapter on BME, the Italian Bioengineering Group (GNB), the Italian Society of Electrical and Telecommunication Engineering (AEIT), the Department of Bioengineering of the Politecnico di Milano will organize the seventh International Workshop on Biosignal Interpretation which will be held in Como, Italy on July 2-4th 2012. The workshop aims at exploring the fields of biosignal interpretation including model based signal analysis, data interpretation and integration, medical decision making extending the existing signal processing methods and technologies for the effective utilization of biosignals in a clinical environment as well as for a deeper understanding of biological functions from the whole organism, system, to cellular, protein and gene scales. This Workshop was held basically every three years with a site rotation among Europe, Asia and America. The first one was held in Denmark in 1993 and the last one was in New Haven CT, USA, in 2009.

SCIENTIFIC PROGRAM:

Distinguished speakers will be invited to deliver lectures on important topics of the field. Original contributions pertinent with the scope of the workshop are welcome. Prospective authors are invited to submit original contributions in any of the following categories but not limited to:

- Biosignal processing, pattern analysis, and data fusion (linear, nonlinear and nonstationary analysis, adaptive data processing, model based signal analysis, chaotic and fractal analysis, time-frequency and time scale analysis, cluster analysis, genetic algorithms, neural net, Fuzzy analysis, data mining and prediction, integration of signals and images, applications to ECG, Heart Rate Variability, EEG, MEG, EMG signals analysis, evoked potentials, multimodality approach, fusion with imaging like CT, MRI and PET/SPECT as well as other related topics).
- Mathematical modeling of experimental and clinical data (linear and nonlinear phenomena, complex systems, neural modeling and neural dynamics, modeling and control of cardiovascular, autonomic and pulmonary systems, modeling of brain functions, perception and learning or other related topics).
- On-line interactive signal acquisition and processing (on-line patient monitoring, intelligent monitoring, ambulatory systems and other related topics).
- Medical decision support methods (parameter estimation, decision making, rule based/expert systems, automatic diagnosis, data reasoning and other related topics).
- Medical informatics (biosignal interpretation in virtual reality applications, in telemedicine and internet-based solutions for transmission, exchange and analysis of biomedical data and other related topics).
- Cellular signals and computational genomics and proteomics (analysis of DNA sequences, processing of gene expression data, genetic and evolutionary computing, proteic sequence processing and other related topics).

PUBLICATIONS:

All submitted papers will be reviewed on the basis of scientific quality, relevance, originality, medical and biological significance, and clarity. Accepted papers will appear in the conference proceedings. Selected contributions will be published as full papers in a Special Issue of Methods of Information in Medicine.

REGISTRATION FEES:

Early	Late
Regular: 350€	420€
Student : 220€	300€

IMPORTANT DEADLINES:

1. Submission of papers (up to 4 pages): **March 1st, 2012**
2. Acceptance of papers: **April 15th, 2012**
3. Early registration deadline: **May 1st, 2012**
4. Return of revised papers: **May 15th, 2012**
5. The Workshop: **July 2-4th, 2012**

CONTACTS:

Dr. Valentina Corino
Dipartimento di Bioingegneria
Politecnico di Milano
e-mail: BSi2012@biomed.polimi.it
